MUNICIPAL AFFAIRS.

BOARD OF ALDERMEN. The Board met last evening, the President, Isa ac O.

Alderman Briggs presented a report from the Special mmittee, being the evidence in relation to the nativity

the Charter of Montgomerie, which gave the appointment of such officer to the Corporation and their successors for ever, with the right to take and roceive all fees, profits and perquisites arising therefrom. The Court, however, elected that the grant to the Corporation to appoint measurers, was a grant of political power, soupled with no interest, save the sees as a compensation for measuring—that the grant was not to be considered in the light of property, or intended as a source of revenue, and that, therefore, the logical stive set was valid, and the Charter so far controlled.

ing—that the grant was not to be considered in the light of property, or intended as a source of revenue, and that therefore, the legislative act was valid, and the Charter so far controlled.

Numerous cases might be cited to the same effect, and it may now be considered well established law, that all grants of political power to municipal corporations, are held at the will of the Legislature, who may abolish, abridge or modify them at their pleasure.

The constitution of the State contains no provision taking away this power. It simply declares that "nothing in the constitution shall affect any grants of land within this State, made by authority of the King or his predecessors, or shall annul any chaiters to bodies politic or corporate, by him or them made." This, it will be seen, imposes no prohibition upon the Legislature, and was probably inserted from abundant cuntion, that the charter of the cities should not be considered as swept away by the Revolution, which had abolished the crown and substituted a new government, (19 Johnson R. 249.)

But political powers must not be confounded with rights of property, such as the grants of land, the rights efferty the tranchise of the streets, and other valuable rights granted to the city by the charters from the Crown. Such rights are protected by the constitution of the United States, which regards them as contracts, and prohibits the Legislatures of the States from passing any law impairing their obligation. (Dartmouth College vs. Woodward, 4 Wheaton, 518.) Over such rights the Legislature has no more control than over the private rights of property held by individuals.

The right to lice as the sale of liquors being a political right, I am therefore of opinion that the late act of the Legislature is not an unlawful invasion of the charter.

The right to lone the hasle of liquors being a political right, I am therefore of opinion that the late act of the Lighthuise is not an uniawitul invasion of the chair.

Second—Under the existing laws, the Mayor, and the Aldennes and the Common Councilment of a ward, or a majority of them, have the sole right to grant and reserves the late act declare that "one licenses to sell liquor, except as threin provided, shall hereafter be granted," and that the probabition shall take effect immediately. The 2d section, to go into effect on the late act declare that "one liquor, except as threin provided, shall hereafter be granted," and that the probabition shall take effect immediately. The 2d section, to go into effect on the late act declare that "one of the sole of the few provided in the probabition against granting is equally effectual against the effect of May next.

THE PERRIES.

The resolution passed by the Board of Councilman to postpone the sale of the leases of the Staten Island, Hurlgate and Barclay street ferries, was concurred in.

The Board then adjourned to Thursday.

BOARD OF COUNCILMEN.

This coard met last night in the City Hall, D. D. Concver, the President, in the chair.

The first business was the presentation of petitions.

The following was then offered and adopted:-Resolved. That the Committee on Markets be required to inquire and report why it is that the markets of the city yield so small a revenue.

yield so small a revenue.

After the adoption of some resolutions in regard to
the flagging of sidewalks, it was carried to pay Swan
Lindrey, keq., a member of the Police Department, the an omnibus.

The following resolution was then adopted:—

The following resolution was then adopted:—
Resolved, That the Comptroller be and he is hereby directed to postpone the sale of the following ferry lesses until May 16, 1855, viz: Barclay street, Hurlgate and Staten Island ferries.

Communications being next in order, the letter from Mr. Dillon, Counsel to the Corporation, giving his views upon the Maise L/qor law, was read. [See proceedings of Board of Aldermen.]

The rules were then suspended, upon motion of Councilman Wandell, in order to take action upon the report of the Finance Committee, in favor of confirming lesses of decks and slips, and appropriating \$20,000 for dredging out slips. This report, being taken up, was accepted, and the resolution adopted.

The report of the Finance Committee in favor of remitting to the 71st regiment, New York State Militia, a portion of the amount spent in fitting up their drill room, was then called up, and referred to Committee of the Whole.

The Board then resolved itself into Committee of the Whole, and, after acting upon several papers of no special importance, the Board adjourned till the first Monday in May next.

THE WORTH LEGION AND ITS OBJECTS.

The announcement in yesterday's HERALD of the formation of a regiment for Cuba esused no little excitement, and the Cooper House, the head recruiting office, was visited during the day by numbers of curious people. We understand our publication of the names of the officers have resigned in consequence. Through some mistake of the compositor, the mark designating the Custom House officers were omitted. We republish their names to-day:—Major Addison Farnsworth, Captain Israel Miller, Lieutenant J. B. Howard, and Capt. Henry Games. There is another recruiting office opened at 110 Greenwich street. Up to last night there were thirty-five names excelled. The following is the obligation the recruits sign;—

We, the undersigned, believing that the government of the United States will protect its cititens in their just and legal rights; and in view of the time having new arrived when ample reparation will be assumed of the Hong continued indignities of our citizens and our flag, by the Spanish authorities of Cuba, which, if refused, must result in war, ofer ourselves under the above named officers and in their organization ready, at any time, to vindicate our rights and the honor of our country's flag, as a regiment of infantry, from the State of New York provided that services of volunteers are required.

We were given to understand that a company, entitled

BEVEREND DOCTOR BAIRD lectured last evening at the Spingler Institute, taking for his subject: "Switzerland, nolland, Sweden and Spain," and giving a brief notice of the geographical position of each country. The Swiss are insulated, partaking of the leading characteristics of the people of the different countries by which it is are insulated, partaking of the leading characteristics of the people of the different countries by which it is bounded. The Rhice, the Rhone, and the Danube rivers take their rise there, with one of the rivers confluent with the Po. The population is not quite two and a haif millions. The city of Constance now lies in the Grand Duchy of Baden. A most beautiful descriptive account of the mountains, valleys, plains and Cantons was next given, with a notice of their resources and history, from the time of Julius Cesar downwards. The various migrations from Italy into Switzerland were also pointed out. If also explained the origin of the power of the house of Hapsburg in the thirteenth century, from Rudolph, a Swiss, down to the present Emperor of Austria. People made much more of the character of William Tell than what the wan deserved. The country is essentially military, and Plus IX. employs six thousand of them in his army. In place of our President, Switzerland had a Directing Committee of five, but in his opinion one President was quite enough. (Laughter.) The war of 1847 had nothing to do with roligion; it was merely a contest between the radicals and aristocrats. Holland and Belgium were next spoken of, and reviewed in the like pleasing manner, with allusion to their dyles, canals, roads, windmills and reclaimed lands. The lecturer concluded with some lucid remarks on the Scandinavian countries and Spath.

The New York Prison Association.—The regular monthly meeting of the Executive Committee of the above association was held last evening, at 7½ o'clo's, in their committee room, No. 13 Clinton Hall, Astorplace. Present. Messre, Harsne, J. Russell. Ballera

in their committee room, No. 13 Clinton Hall, Astorplace. Present, Messrs. Havens, J. Russell, Ballard, place. Present, Messrs. Havens, J. Russell, Ballard, Ring, Edmonds, Holden, Keyser, Crolins, Partridge, Macomber, Marshall, Dr. Griscom, and Russ. R. N. Havens, Eq. in the chair. The minutes of the last meeting were read and approved. The Treasurer's report showed how much had been contributed to the funds of the association since the last meeting. From the disry of the agent it appears that within the last month ninety seven complaints and charges had been carefully investigated—many of these were discontinued on the advice of the association; 331 persons confined in our city prisons spoken with, cautioned and advised; 57 persons had been discharged prisoners had received assistance in monsy—a large number of these were sent into the country to work on farms; 9 persons were supplied with suitable clothing. Of the above, 12 men were discharged convicts from Sing Sing. Strong hopes are entertained of their permanent reform, and especially as five of these are fortunately provided with employment away from city temptations, and where moral influences are thrown around them.

JUMPED OVERHOURD.—As the Fulton ferryboat Manhat-

tan was crossing the river to New York yesterday after-noon, cas of the passengers, a respectable elderly Ger-man, coolly stepped over the chain at the aft part of the man, coolly stopped over the chain at the aft part of the boat, and sprung into the river. The alarm was immediately given, and the boat stopped; but fortunately the serryboat Union, going in the opposite direction at thine, was near, and a boat from he, manned by Messrs. Johnson Carson and Edward Miller, two of the deck hands, succeeded in rescuing him. If the man's intention was suicide, he evidently changed his mind, as soon as he felt the cold water, for he struck out most manfully, and succeeded in keeping affoat until rescued. Period of immersion five minutes.

A New CONTINENTAL RECIMENT.—A meeting was held.

A NEW CONTINENTAL RECIMENT,-A meeting was held sate right in Eagle Hall, corner of Caryst e and Delancy streets, to take measures to form a regiment composed of Americaus, and wearing the continental uniform. Capt. Helme presided, and after some speech making the meeting adjourned over for three weeks. It appears there are now six companies already forming or formed, and only two more is necessary in order to have the full complement of companies.

COLORED CEPHAN ASYLUM.—The above named institu-

tion has lately been suffering great pecuniary embarrass-ment. There is to be a fair held for its benefit, on Broad-way, corner of 13th street. It will commence to-day at acon, and continue until Thursday evening, when it will close.

FINANCIAL AND COMMERCIAL.

MONDAY, APRILED.

Monday, April 22—6 P. M.

There was a very sotive and buoyant market this morning, and speculaters for a rise were in high spirits. The news from Europe is favorably construed, and large purchases of stock securities were made this morning in anticipation of better prices ruling before the close of the week. At the first beard Indiana 5's advanced ½ per cent; Claveland and Toledo dividend bonds, 1; Canton Company, ½; Hudson Railroad, ½; Panama Railroad, 1; Cleveland, Columbia and Cincinnati Railroad, ½; Krie Railroad, ¾; Reading Railroad, ¾; Cleveland and Toledo, ¾. Reilroad bonds were in demand, and sold freely at the prices current at the close on Saturday. Illinois Central Bonds sold to the extent of \$7,500, and improved from the opening. Erie Bonds, 1875, were sold to some extent by bear operators. One sale of \$5,000, seller twelve menths, was made at about four per cent below the cash price. State stocks were unusually active this morning. The transactions at the first board sum up about \$150,000, of which Missouri and Louisians 6's comprise the bulk. Of the fancy stocks, Eric was the most active; nearly four thousand shares were sold, principally on time, and closed at a slight improvement on the opening price. Reading Railroad moved with more strength than any other railroad stock on the list, and it has a better basis for its support. Its weekly earnings are immense, and the aggregate for the year, at the rate already realized, will not fall much short of that of the New York Central, the stock of which is selling eight per cent higher, on a cost more than double that of the Reading. One of these days this strange inselling eight per cent higher, on a cost more than double that of the Reading. One of these days this strange in-consistency will disappear, and the two companies occu-py their true relative positions. The semi-annual state-ment of the Hudson River Railroad Company has made a

and find its way into stock investments.

Albert H. Nicolay's regular semi-weekly auction sale of stocks and bonds did not take place this day, in consequence of Mr. Nicolay's continued severe indisposition;

it was postponed to Thursday.

Simeon Draper's regular semi-weekly sale of bonds and stocks will take place at auction to morrow, Tuesday, at the Merchants' Exchange, at half-past 12 o'clock. Among the offerings will be a large amount of stocks of some of our ocean steam navigation companies.

The last returns compared with those for the week

than was generally anticipated. The heavy shipments last week, it appears, were not drawn entirely from the banks, and before further exportations to any extent will be made, we shall have an arrival from California, with a large remittance. The contraction in the line of discounts is satisfactory. A moderate reduction in the movement of this department would not be felt in the money market. There is such an abundance of outside capital that the supply must continue in excess of the demand. The bank returns for the last week

show cautiousness on the part of their managers.

At the second board the market was better. Eric Rallroad advanced 14 per cent; Reading Railroad, 34; Harkm, 36; Panama was heavy at our quotations.
